

# Introducing Copilot For Microsoft 365 - The Most Powerful Productivity Tool On The Planet!

In the rapidly evolving digital landscape, staying ahead of the curve is no longer an option but a necessity. With Copilot for Microsoft 365, we bring you the future of work, today. Copilot is not just an AI - it's your personal assistant, your team's collaborator, and your organisation's catalyst for digital transformation.

## ⊕ TRANSFORM THE WAY YOU WORK

- **Boost Efficiency:** Streamline workflows by automating routine and complex time-consuming tasks, freeing up your time to focus on what matters most.
- **Enhance Creativity:** Get inspired with AI-driven content creation and ideation helping you work faster and wiser.
- **Ensure Precision:** Reduce errors with real-time assistance and data analysis
- **Collaboration:** With Copilot, your team can collaborate seamlessly, breaking down silos and fostering a culture of innovation.
- **Insights:** Leverage the power of AI to gain deep insights into your business, helping you make data-driven decisions.
- **Learning:** Copilot is a learning AI, constantly evolving and adapting to your needs, ensuring you're always at the forefront of innovation

## ⊕ BUSINESS AREAS AND JOB ROLES:

- **Sales:** Craft personalised pitches, manage CRM data, and generate reports.
- **Marketing:** Create compelling content and visualisations, analyse market trends, and optimise campaigns.
- **HR:** Streamline recruitment, onboard employees, and manage internal communications.
- **Finance:** Analyse financial data, forecast trends, and prepare statements.
- **IT:** Automate helpdesk responses, manage service tickets, and document solutions.

### CYBIT - MICROSOFT CERTIFIED PARTNER

## YOUR COPILOT FOR MICROSOFT 365 JOURNEY WITH CYBIT

### FREE COPILOT READINESS ASSESSMENT

To determine if your organisation is prepared for adoption, Cybit's specialist Microsoft Team has created a comprehensive Free Copilot Readiness Assessment.

During this consultation, we review your current Microsoft environment and tenant posture to determine eligible Copilot users that you are using all productivity and collaboration tools to leverage the full capabilities of Copilot for Microsoft 365. We also carry out relevant data security and governance checks to ensure you meet the key requirements for Copilot adoption.

Following this assessment, we'll provide a summary report and discuss the results with you. Additionally, we'll outline key areas of focus and next steps for successful Copilot adoption.

### ENGAGE AND CONSULT

Our consults will review your current digital transformation strategy, business pain points and objectives, identifying key areas Copilot implementation would bring most value.

### DISCOVER AND INSPIRE

Deliver a free report for your team which showcases 'The Art of the Possible' demonstrating how Copilot can transform and bring value in areas identified during our initial consultation. The report will provide specific operational changes, departments, job roles and business use cases for engagement with key stakeholders supporting your Copilot adoption proposal.
